Professional Summary

Motivated Full-Stack Web Developer and BCA student at Satavahana University with hands-on industry experience building user-centric digital products. Passionate about the intersection of **technology and digital communication**—skilled at crafting compelling web experiences, communicating technical concepts clearly, and leveraging data to drive product decisions. Eager to contribute to developer-facing growth, digital content strategy, and product marketing initiatives within fast-paced, innovation-led environments like Google.

Core Competencies

Programming Languages:	Python, C, JavaScript (ES6+), HTML5, CSS3
Web Development:	Full-Stack Development, Responsive UI/UX Design, REST APIs, Git & GitHub
Digital & Analytics Tools:	Power BI, Google Analytics (conceptual), Data Visualization, Dashboard Reporting
Marketing-Adjacent Skills:	Technical Writing, Developer Documentation, Audience Research, Campaign Storytelling, Portfolio Presentation
Soft Skills:	Cross-functional Communication, Problem Solving, Self-directed Learning, Stakeholder Presentation

Professional Experience

Full-Stack Developer Intern

Sep 2025 – Oct 2025

Cognifyz Technologies · Karimnagar, Telangana

- Designed and developed full-stack web applications, translating user requirements into functional, polished digital solutions—demonstrating the product thinking central to marketing-driven development.
- Collaborated across front-end (HTML/CSS/JS) and back-end layers to deliver cohesive user experiences, ensuring consistent brand voice and visual identity across all pages.
- Debugged and optimized codebase for performance and accessibility, improving page load efficiency and broadening potential user reach—skills directly transferable to landing page and campaign asset optimization.
- Documented development workflows and created structured technical write-ups, building a foundation in content creation and audience-focused communication.
- Gained practical exposure to iterative product development cycles, applying feedback loops similar to A/B testing and campaign performance analysis used in growth marketing.

Projects & Digital Presence

Personal Portfolio Website

2025

Self-Initiated · bhanuteja7842.github.io/Bhanuteja72

- Built and deployed a fully responsive personal portfolio website from scratch using HTML, CSS, and JavaScript—functioning as a personal digital brand hub to showcase skills and projects to recruiters.
- Optimized site structure with semantic HTML and clean navigation to improve discoverability, applying fundamental SEO and UX principles used in digital marketing.
- Curated project storytelling and messaging to effectively communicate technical value propositions to non-technical audiences—a core competency in developer marketing and advocacy roles.

Education

Bachelor of Computer Applications (BCA)

Aug 2025 – 2028 (Expected)

Satavahana University · Karimnagar, Telangana

- Relevant coursework: Web Technologies, Data Structures, Python Programming, Database Management.
- Active participant in academic tech initiatives; pursuing supplementary certifications in digital tools.

Intermediate (10+2) — Science

2022 – 2024

Certifications & Professional Development

- **Power BI Workshop** — Data visualization and business intelligence reporting; applicable to marketing performance dashboards and campaign analytics.
- **Full-Stack Development** — Practical internship-based certification through Cognifyz Technologies.
- *Actively pursuing:* Google Digital Marketing & E-commerce Certificate (Coursera), Google Analytics Individual Qualification (GAIQ).
