ABOUT ME

Passionate BCA student and self-driven Full-Stack Developer with real-world internship experience building responsive web applications. Currently expanding into **AI/ML integration** and **test automation**, aiming to build intelligent, end-to-end systems. Strong foundation in HTML, CSS, JavaScript, and back-end development, with a curiosity-first approach to emerging technologies.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), Responsive Design, UI/UX Principles
Backend	Node.js (learning), REST APIs, Database Integration, System Design Basics
AI & Auto	Python (learning), Prompt Engineering, AI API Integration, Automation Scripting
Tools	Git & GitHub, Power BI, Adobe Photoshop, VS Code, Browser DevTools
Soft Skills	Problem Solving, Self-Learning, Team Collaboration, Technical Documentation

WORK EXPERIENCE

Full-Stack Developer

[Sysplan IT Solutions](#)

May 2026 – Present

Hyderabad

- Built a **Feedback Management System** end-to-end — designed the responsive front-end (HTML/CSS/JS) and integrated back-end logic for data handling and system reliability.
- Improved **page load performance and UX** by optimising component structure and minimising redundant DOM operations.
- Practised structured **debugging and code documentation**, contributing to maintainable and scalable codebases.

Full-Stack Developer Intern

[Cognifyz Technologies](#)

Sep 2025 – Oct 2025

Karimnagar

- Developed and deployed **full-stack web applications** translating client requirements into functional, polished products across front-end and back-end layers.
- Optimised codebase for **performance and accessibility**, improving responsiveness across devices and browsers.
- Gained exposure to **iterative development cycles** — sprints, peer reviews, and incremental feature delivery.
- Produced **technical documentation** and workflow write-ups, building habits in structured engineering communication.

PROJECTS

Feedback Management System

[\[HTML\]](#) [\[CSS\]](#) [\[JS\]](#) [\[Backend\]](#)

- Full-stack system for collecting, storing, and displaying user feedback with a responsive interface and structured data flow.

Personal Portfolio Website

[\[HTML\]](#) [\[CSS\]](#) [\[JS\]](#) bhanuteja7842.github.io/PortfolioNew

- Designed and deployed a personal brand site showcasing projects and skills with clean UI and fast load times.

Power BI Analytics Dashboard

[\[Power BI\]](#) [\[DAX\]](#) [\[Data Viz\]](#)

- Built interactive dashboards to visualise business metrics, practising data modelling and insight communication.

AI Automation Explorer

[\[Python\]](#) [\[Prompt Engineering\]](#) [\[AI APIs\]](#) *In Progress*

- Experimenting with AI API integration and automation scripts to reduce repetitive workflows, applying learnings from ongoing AI/ML self-study.

EDUCATION

Bachelor of Computer Applications (BCA)

Satavahana University — KIMS Degree College, Karimnagar

Aug 2025 – 2028 (Expected)

Intermediate (MPC)

TMRIES Jr. College, Karimnagar

2022 – 2024

CERTIFICATIONS & LEARNING

Power BI Workshop — DAX, data modelling, visual reporting

AI & Automation — self-study via online platforms (ongoing)

Full-Stack Web Dev — HTML, CSS, JS, back-end integration

Python Scripting — automation, APIs, workflow scripting (ongoing)
